

## Updates To Your Prescription Benefits

Effective July 1, 2017

The Prescription Drug List (PDL) groups medications by the conditions they treat. Each medication is placed in a tier that indicates the amount you pay to fill a prescription as determined by your employer or health plan. Please reference this chart as you review the following PDL updates.

**Tier 1**  
Lowest-cost medications

**Tier 2**  
Midrange-cost medications

**Tier 3**  
Highest-cost medications

### Medications moving to a higher tier

Medications may move to a higher tier when they are more costly and have lower-cost options available. If your medication is listed below, you may continue taking it, but you may pay a higher cost. We encourage you to discuss the lower-cost option(s) below with your doctor to determine if they may be used to treat your condition.

THERAPEUTIC USE	MEDICATION NAME	TIER PLACEMENT	LOWER-COST MEDICATIONS
<b>Anaphylaxis Therapy</b>	Epipen, Epipen Jr	<b>2→3</b>	Epinephrine (Mylan manufacturer)
<b>Cancer</b>	Nilandron	<b>2→3</b>	consult your physician for clinically appropriate alternatives
<b>Cardiovascular Agents</b>	Dilatrate SR	<b>2→3</b>	isosorbide dinitrate tablet, isosorbide dinitrate tablet CR, isosorbide mononitrate tablet, isosorbide mononitrate tablet SR
	Isordil	<b>2→3</b>	isosorbide dinitrate tablet, isosorbide dinitrate tablet CR, isosorbide mononitrate tablet, isosorbide mononitrate tablet SR
	Nitro-Bid ointment 2%	<b>2→3</b>	nitroglycerin capsule, nitro-time capsule, nitroglycerin patch, minitran patch
	Nitro-Dur patch 0.3mg/hr, 0.8mg/hr	<b>2→3</b>	nitroglycerin capsule, nitro-time capsule, nitroglycerin patch, minitran patch
<b>Hormonal Agents</b>	Saizen	<b>2→3</b>	Norditropin injection, Nutropin AQ injection
