

Serve You Rx Prior Authorization Information and Drug List

What follows is a listing of drugs that may be subject to Prior Authorization on an outpatient prescription drug benefit plan administered by Serve You Rx. To confirm if a drug listed here is subject to Prior Authorization, please call **800-759-3203**.

Prior Authorization is a restriction that applies to certain medications. Prior Authorizations may be required at therapy initiation as well as periodically thereafter as a means to confirm the ongoing necessity and appropriateness of prescription drug use.

At the time of therapy initiation, Prior Authorization requires the prescriber to submit supporting clinical documentation to Serve You Rx confirming the intended use is appropriate and non-experimental. Under the

reauthorization process, such as for a Prior Authorization that has expired, the prescriber must generally demonstrate clinical improvement and provide other documentation as necessary to support continued therapy. Other plan-specific exclusions and exceptions may apply.

Providers can submit Prior Authorization requests to Serve You Rx via the following methods:

- Email: priorauthorizations@serve-you-rx.com
- Fax: 800-480-4840
- Phone: 800-759-3203

For additional information about Prior Authorization, including plan-specific appeals information, please call Serve You Rx Member and Provider Services at **800-759-3203**.

Though not listed here, the majority of oncology drugs also require Prior Authorization. Listings are subject to change.
